P.O. Box 149347 MC 1873
Austin, Texas 78714
(737) 255-4300

Important Notes on the Data:

- This report describes HIV and AIDS diagnoses reported to the Texas Department of State Health Services Surveillance Program that were diagnosed and reported to the system by June 30, 2020. Data are presented by date of diagnosis rather than date of report.
- **HIV** - Counted among HIV case numbers are all HIV cases regardless of disease status (HIV-only or AIDS) at diagnosis.
- **AIDS** - The AIDS data in this report include all cases who were diagnosed with AIDS in the given time frame regardless of whether they were previously diagnosed as HIV-only or if they were a newly diagnosed and had already met the AIDS case definition.
- A substantial number of HIV and AIDS cases are reported without an identified risk factor, therefore multiple imputation is used to assign a risk factor for these cases using an algorithm provided by the Centers for Disease Control and Prevention. In this report, multiple imputation has been used in the tables showing estimated transmission categories for diagnoses among adults and adolescents.
