

Working with Search Results

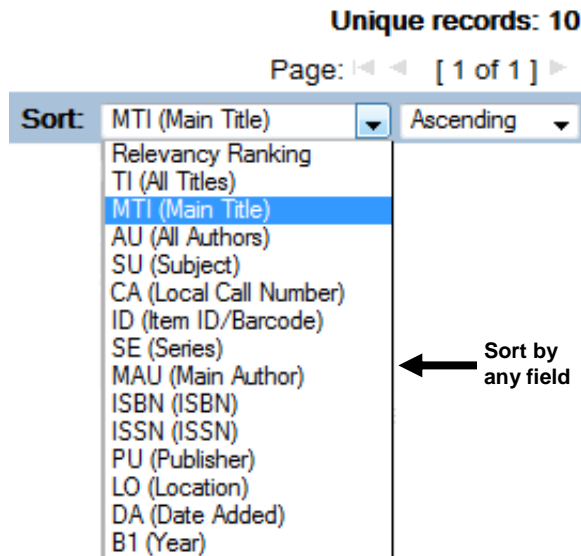

Email or Print Results

Start by checking the boxes to the left of the results you want individually, or select all the results by checking the box at the top of the results, then click on the appropriate icon at the top of your list.

When selecting the email option, enter "guest" when prompted for the user ID.

You may also re-sort your data by choosing an option in the drop down box on the top right of your results.

Advanced Search

Advanced search is the most versatile of the search options. Use it when you want to limit your search to specific fields (e.g. limiting a search of the word “brown” in the title or author field would yield very different results). You may use the AND, OR, and AND NOT operators between the field indicators to narrow your search. Results are displayed alphabetically by title.

Advanced Search

Word(s)	leadership	AND	Search	Start Over
Title		AND		
Author		AND

Search Tip:

Click on the **Show search options** link to expand the Options area and limit your search to specific parameters such as:

- Matching ALL Keywords, Match ANY Keyword, or Exact Phrase.
- Year or year range.
- Format such as audiobook, book, or visual material.

Search Tip:

- Put an asterisk (*) at the end of a word to allow multiple endings. For example, child* finds child, child's, children, children's, childhood, etc.

Texas Health and Human Services employees may search the Electronic Library at <https://tdshs.tdnetdiscover.com/portal> for e-books, e-journals, and databases.

Browse Search

There are many different indexes available to you when using the Browse Search option. For example, you may look for all titles, all authors, or local call number.

Browse Search

AIBICIDIEIFIGIHIIJKILIMINIOIPIQIRISITIUUIVWIXIYZ

Look for: Browse Begins Contains Ends

TI (All Titles) Search Start Over

- TI (All Titles)
- TI (All Titles)
- MTI (Main Title)
- AU (All Authors)
- SU (Subject)
- CA (Local Call Number)
- ID (Item ID/Barcode)
- SE (Series)
- MAU (Main Author)
- ISBN (ISBN)
- ISSN (ISSN)
- PU (Publisher)
- LO (Location)
- DA (Date Added)
- B1 (Year)
- STI (Serials Title)

A-Z search is also available under Browse search. It allows you to search not only based on an index but also by spelling either the beginning of the word (Begins), an included word (Contains), or an ending word (Ends). These options allow you to filter your search.

For example, using the word “health”, you can see how you might receive different results.

- Begins looks for the word “health” at the beginning of the field, such as **Health** literacy from A to Z.
- Contains looks for the word or phrase anywhere within the field, such as *Epidemiology for public health practice*.
- Ends looks for the word at the end of the search field, such as *Nutritional health*.
