Date: 11-5-08 AS PRODUCED
Spot Number: SHOTS-0104 B (Spanish)

Spanish

LITTLE GIRL: Mamá y papá, las vacunas protegen a los bebés contra enfermedades muy serias, como...

*LITTLE BOY: Dip-histay.
Dip-histeria*

LITTLE GIRL: Se dice difteria, los bebés con difteria tienen dificultad al respira.

LITTLE BOY: ¡Tetato!

LITTLE GIRL: Se dice tétanos. El tétanos daña los músculos del bebé.

LITTLE BOY: ¡Tostafina!

LITTLE GIRL: Eso quiere decir tos ferina. La tos ferina es una tos que empeora poco a poco y puede causar hasta la muerte.

LITTLE GIRL: Así que vacune a su bebé a los 2, 4, 6 y 12 meses...y no se olviden de la cuarta DTAP a los 15 a 18 meses, Las vacunas son como los abrazos...

LITTLE BOY: No te quieres perder ni una vacuna.

7-YEAR OLD: Para más información llame al 1- 800-252-9152 o visite immunizetexas.com.

English:

LITTLE GIRL: Mom and dad, vaccines protect babies against very serious diseases, like...

LITTLE BOY: Dip-histeria

LITTLE GIRL: It's called diphtheria. Babies with having difficulty breathing.

LITTLE BOY: Tetato!

LITTLE GIRL: That's tetanus. Tetanus hurts the baby's muscles.

LITTLE BOY: Tostafina!

LITTLE GIRL: That means whooping cough. Whooping cough is a cough that gets worse little by little and can cause even death.

LITTLE GIRL: So, vaccinate your babies at 2, 4, 6, and 12 months ...and don't forget the 4th DTaP at 15 to 18 months. Vaccines are like hugs.

LITTLE BOY: You don't want to miss one.

LITTLE GIRL: For more information, call 1-800-252-9152 or log on to immunizetexas.org.
