SYMPTOMS

Jumping from one subject to another and saying things that don't make sense

Seeing, hearing, or feeling things that others do not

False beliefs or thoughts that no one believes or understands (for example, believing others are always talking about you)

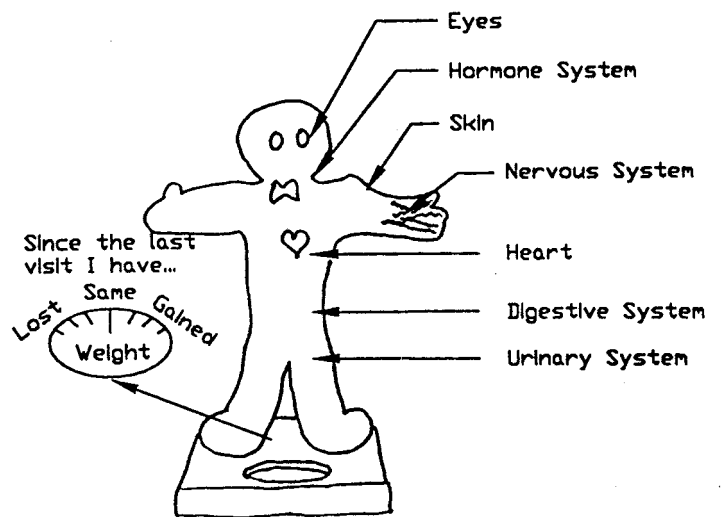

No interest or feelings about anything

Unable to complete everyday tasks

Medications can cause side effects in many parts of the body. Some may go away in time, others can be treated by your doctor.

Ask your doctor about side effects that need to be reported immediately!

Illegal drugs and alcohol may increase the side effects of medications or keep them from working.
