<sup>a</sup>Incidence rates (IR) are calculated per 100,000 population. Population data are projected population from Texas Demographic Center's Texas Populations Projections Program; 2019 population projections were updated July 18, 2019, and 2018 population projections were from the prior version.

<sup>b</sup>Age is calculated based on date of birth and event date, which is onset date if known.

Note: Per the Emerging and Acute Infectious Disease Unit Data Suppression Policy, beginning with data published after September 2021, rates are not provided (-) when the Relative Standard Error exceeds 25% (n<16).
