Enclosed is a copy of the blank 2019 Annual Statement of Community Benefits Standard (ASCBS) form for your hospital or hospital system. Under the Health and Safety Code, Sections 311.045 and 311.046, public and for-profit hospitals designated as Medicaid disproportionate share hospitals are required to file (1) the **ASCBS form** and (2) an **annual report of the Community Benefits Plan** with the Texas Department of State Health Services (DSHS). Please remember that the 2019 ASCBS form must also be filed with your local appraisal district. Mailing instructions are included on the back of this page.

Please note that the 77th Texas Legislature introduced amendments to the Health and Safety Code, Chapter 311, Subchapter D. Section 311.045(f) establishes a mechanism for nonprofit hospitals to receive credit for taking care of county indigent patients. The amendment to Section 311.046(d) establishes requirements for each nonprofit hospital in the areas of providing notice about the charity care program, including the charity care and eligibility policies, to each individual seeking care, and publishing public notice in the local newspaper. Section 311.0461 establishes a new responsibility on DSHS to publish an informational manual containing a summary of the charity care and community benefits provided by each nonprofit hospital. **The 2019 ASCBS form is expanded to collect this information on charity care policies and community benefits in a standardized format.**

The ASCBS form (Part I and Part II) is available online! We recommend that you use this web-based tool **(click on www.ahasurvey.org or www.dshs.state.tx.us/chs/hosp/)** as it will enable you to submit data online making it easier and more efficient for you to respond. A copy of the Health and Safety Code, Chapter 311, Subchapters C and D is also available on our DSHS web site under Regulations and Rules. **The filing date for fiscal year 2019 charity care and community benefits reports is May 12, 2020.**

Please note that a hospital participating in the Medicaid disproportionate share hospital program during the 2019 reporting period or in either of its previous two fiscal years (2017 or 2018) is deemed in compliance of the law. The hospital, however, is required to provide financial information on the ASCBS form and file an annual report of the Community Benefits Plan. Also note that a hospital located in a county with population below 50,000 where the entire county or the population of the entire county has been designated as a Health Professional Shortage Area is exempt from this reporting. A list of hospitals required to report charity care and community benefit information for 2019 and a list of hospitals exempt from reporting for 2019 are available on our DSHS web site.

Please contact Mr. Dwayne Collins, Center for Health Statistics, at (512) 776-7261 or e-mail dwayne.collins@dshs.texas.gov if you have any questions. Thank you for your cooperation.

MAILING INSTRUCTIONS

NONPROFIT HOSPITAL CHARITY CARE AND COMMUNITY BENEFITS REPORTING REQUIREMENTS

I. Reporting Requirements for the Texas Department of State Health Services

(1) Submit your Annual Statement of Community Benefits Standard (ASCBS) form (Part I) using the online web-based tool located at www.ahasurvey.org or www.dshs.state.tx.us/chs/hosp/. Nonprofit hospitals must also complete Part II of the ASCBS form.

(2) Mail the annual report of your Community Benefits Plan to the following address. Hospitals reporting on a system basis please mail aggregate system data for pages 1 and 3 of the ASCBS form as well as submitting data online for each individual hospital included in the system.

Texas Department of State Health Services
Center for Health Statistics
Hospital Survey Unit
1100 West 49th Street
PO Box 149347
Austin, Texas 78714-9347

Failure to file the annual report of the Community Benefits Plan and the Annual Statement and accompanying worksheets with the department could result in an assessment of a civil penalty not to exceed $1,000 for each day a report is delinquent. (Health and Safety Code, Section 311.047.)

II. Reporting Requirements for the Local County Appraisal District

Mail one copy of the Annual Statement of Community Benefits Standard (Part I) and accompanying worksheets to your local county appraisal district. If you do not timely file your statement, you could lose your property tax exemption.

Please note: Hospitals are no longer required to file the ASCBS form with the Comptroller's Office.

INSTRUCTIONS FOR COMPLETION OF THE ANNUAL STATEMENT OF COMMUNITY BENEFITS STANDARD

This form should be used by nonprofit hospitals for fiscal reporting periods ending on or after January 1, 2019. Please refer to the following instructions in completing the Annual Statement of Community Benefits Standard (ASCBS). Hospitals may elect to report on a consolidated "system" basis. Hospitals electing to report on a system basis shall complete individual surveys for each hospital included in the system and report their consolidated system data on pages 1 and 3 under the columns for System. The consolidated system data may be entered on the survey form for one hospital and need not be entered for other hospitals in the system. Hospitals not reporting on a system basis should leave the System columns and Section III blank.

Hospitals required to report: The following hospitals are included in the definition of nonprofit hospitals and are required to report:

1. a hospital eligible for tax-exempt bond financing; or exempt from state franchise, sales, ad valorem, or other state or local taxes; and organized as a nonprofit corporation or a charitable trust under the laws of this state or any other state or country; or
2. a Medicaid disproportionate hospital; or
3. a public hospital owned or operated by a political subdivision or municipal corporation of the state, including a hospital district or authority.

Exemptions: A nonprofit hospital is not required to report if it:

1. a. is exempt from state franchise, sales, ad valorem, or other state or local taxes; and

   b. does not receive payment for providing health care services to any inpatients or outpatients from any source including but not limited to the patient or any person legally obligated to support the patient, third-party payors, Medicare, Medicaid, or any other federal, state, or local indigent care program; payment for providing health care services does not include charitable donations, legacies, bequests, or grants or payments for research; and

   c. does not discriminate on the basis of inability to pay, race, color, creed, religion, or gender in its provision of services; or
2. is located in a county with a population under 50,000 where the entire county or the population of the entire county has been designated as a Health Professionals Shortage Area (HPSA). Note: A nonprofit hospital is required to report if it is located in a county with a population under 50,000 where a subpopulation, partial geographic area, or a facility is designated as a HPSA. In this case, Exemption 2 does not apply.

Reporting Periods: Indicate the 12-month period covered by the report.

Taxpayer Number: Include the 11-digit taxpayer number assigned by the Comptroller of Public Accounts.

Net Patient Revenue: "Net Patient Revenue" used in I-1. is revenue reported at the estimated net realizable amounts from patients, Medicaid disproportionate share payments, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined; exclude DSRIP, the incentive payments from net patient revenue and treat bad debts as a deduction from net patient revenue.

Standards: Select the standard by checking the appropriate box (A, B or C). (Note: Disproportionate share hospitals designated under the state Medicaid program in 2017, 2018 or 2019 should check the box for I-2. If I-2. is selected, completion of sections I-3. and I-4. is not required.) Provide the requested worksheets and additional information, if applicable.

Worksheet 1

ESTIMATED UNREIMBURSED COSTS OF INPATIENT AND OUTPATIENT CHARITY CARE PROVIDED BY HOSPITAL

Definitions

Reporting Period: Indicate the beginning and ending dates for your fiscal reporting period.

Financially Indigent: An uninsured or underinsured person who is accepted for care with no obligation or a discounted obligation to pay for the services rendered based on the hospital's eligibility system.

Medically Indigent: A person whose medical or hospital bills after payment by third-party payors exceed a specified percentage of the patient's annual gross income, determined in accordance with the hospital's eligibility system, and the person is financially unable to pay the remaining bill.

Charity Care: The unreimbursed cost to a hospital of providing, funding, or otherwise financially supporting health care services on an inpatient or outpatient basis to a person classified by the hospital as "financially indigent" or "medically indigent."

Billed Charges for Charity Care: The total amount of hospital charges for inpatient and outpatient services attributable to charity care in a cost reporting period. These charges do not include bad debt charges.

Hospital Eligibility System: The financial criteria and procedure used by a hospital to determine if a patient is eligible for charity care. The system shall include income levels and means testing indexed to the federal poverty guidelines; provided, however, that a hospital may not establish an eligibility system which sets the income level eligible for charity care lower than that required by counties under Section 61.023 or higher, in the case of the financially indigent, than 200 percent of the federal poverty guidelines. A hospital may determine that a person is financially or medically indigent pursuant to the hospital's eligibility system after health care services are provided.

Cost to Charge Ratio Calculation: Derived in accordance with generally accepted accounting principles for hospitals.

Cost to Charge Ratio = Prior Year (2018) Total Patient Care Operating Expenses divided by Prior Year (2018) Gross Patient Service Revenue. Note: Use audited data for FY 2018 in calculating the cost to charge ratio.

Reporting Period: Indicate the beginning and ending dates for your fiscal reporting period.

Unreimbursed Costs: The costs a hospital incurs for providing services after subtracting payments received from any source for such services including but not limited to the following: third-party insurance payments; Medicare payments; Medicaid payments; Medicare education reimbursements; state reimbursements for education; payments from drug companies to pursue research; grant funds for research; and disproportionate share payments. For purposes of this definition, the term "costs" shall be calculated by applying the cost to charge ratios derived in accordance with generally accepted accounting principles for hospitals to billed charges. The calculation of the cost to charge ratios shall be based on the most recently completed and audited prior fiscal year of the hospital or hospital system. For purposes of this definition, charitable contributions and grants to a hospital, including transfers from endowment or other funds controlled by the hospital or its nonprofit supporting entities, shall not be subtracted from the costs of providing services for purposes of determining the unreimbursed costs of charity care and government-sponsored indigent health care only.

Government-sponsored Indigent Health Care: The unreimbursed cost to a hospital of providing health care services to recipients of Medicaid and other federal, state, or local indigent health care programs, **eligibility for which is based on financial need.**

Definitions

Reporting Period: Indicate the beginning and ending dates for your fiscal reporting period.

Unreimbursed Costs: The costs a hospital incurs for providing services after subtracting payments received from any source for such services including but not limited to the following: third-party insurance payments; Medicare payments; Medicaid payments; Medicare education reimbursements; state reimbursements for education; payments from drug companies to pursue research; grant funds for research; and disproportionate share payments. For purposes of this definition, the term "costs" shall be calculated by applying the cost to charge ratios derived in accordance with generally accepted accounting principles for hospitals to billed charges. The calculation of the cost to charge ratios shall be based on the most recently completed and audited prior fiscal year of the hospital or hospital system. For purposes of this definition, charitable contributions and grants to a hospital, including transfers from endowment or other funds controlled by the hospital or its nonprofit supporting entities, shall not be subtracted from the costs of providing services for purposes of determining the unreimbursed costs of charity care and government-sponsored indigent health care only.

Government-sponsored Program Unreimbursed Costs: The unreimbursed cost to the hospital of providing health care services to the beneficiaries of Medicare, the Civilian Health and Medical Program of the Uniformed Services, and other federal, state, or local government health care programs.
