

ADULT RECREATIONAL SPORTS OPERATORS: Page 3 of 3

Health recommendations for grounds and facilities:

- Develop, train, and implement increased daily sanitization protocols for common surfaces, restrooms, recreational equipment, and facilities.
- Make hand sanitizer, disinfecting wipes, soap and water, or similar disinfectant readily available throughout the facility.
- Consider having an individual wholly or partially dedicated to ensuring the health protocols adopted by the adult recreation sport operator are being successfully implemented and followed.**
- Health policies and protocols should include communicating and coordinating with the local health department, local emergency services, and local health care providers.

Health recommendations for adult recreation sport facilities:

- Develop and implement a Program Activity Hygiene Plan to include:
 - Sanitization of all program areas
 - Sanitization of equipment before and after use
 - Hand washing or hand sanitizing before and after activities
- For group excursions, develop and implement Transportation Protocols to include:**
 - One individual per seat and every other row in a vehicle
 - Staggered seating for maximum distancing
 - All individuals should sanitize hands upon boarding the vehicle
