:30 English Radio PSA Transcript**

Announcer:

Texas weather brings plenty of opportunities for outdoor fun for Texans...*and* for mosquitoes.

Those pests really enjoy ruining a good day. And some carry diseases that could ruin your life, too, long after the fun’s over.

Fight for your fun and your health. Declare WAR on mosquitoes.

Wear long sleeves and pants.

Apply insect repellent with DEET.

Remove standing water from areas of work and play.

Don’t give mosquitoes a biting chance, Texas.
