Identify High-Risk Patients Receiving Care at Your Clinic/Agency

- People 65 years and older
- People who live in a nursing home or long-term care facility
- People without stable housing
- People of any age with the following underlying medical conditions, particularly those that are not well controlled
  - Chronic lung disease or asthma
  - Congestive heart failure or coronary artery disease
  - Diabetes
  - Neurologic conditions that weaken ability to cough
  - Weakened immune system
  - Chemotherapy or radiation for cancer (currently or in recent past)
  - Sickle cell anemia
  - Chronic kidney disease requiring dialysis
  - Cirrhosis of the liver
  - Lack of spleen or a spleen that doesn’t function correctly
  - Extreme obesity (body mass index [BMI] ≥40)
  - Pregnant women

Ensure High Risk Clients/Patients Have the Following:

- Your contact information for questions/concerns/guidance
- Recent labs are completed if needed for medicine refills
- Ensure 30-90 day refills are available and use mail order or delivery if possible
- If on ADAP, ensure client eligibility and review the Texas HIV Medication Program Emergency Application effective 3/13/2020 – 5/3/2020 at:
  dshs.texas.gov/hivstd/meds/document.shtm
Extend Access to Care Through Telemedicine/Telehealth

Extend Access to Care Through Telemedicine/Telehealth

- Yes, the full DSHS Standards of Care remain in effect when delivering care and/or services via Telemedicine/Telehealth found at: dshs.texas.gov/hivstd/taxonomy

- For OAHS and/or MCM: If a client is being seen for urgent or acute care rather than HIV healthcare maintenance, or if there is limited access to any specific service or a barrier to meeting any specific quality indicator, the provider may document this in their note for consideration of being excluded from the indicator.

- Most indicators have a timeline criteria of “at least once during the measurement period,” and as we currently don’t know the duration or full impact of COVID-19 on our systems of care, this very well may change. For now, ask providers to document any barriers to following the DSHS Standards of Care as applicable in their visit note for visits completed during the state of the National Declaration of COVID-19 Emergency period.

- Additional Guidance concerning Telemedicine/Telehealth will be shared soon

- Questions: Please contact Brian Rosemond for questions about Telemedicine/Telehealth at: brian.rosemond@dshs.texas.gov or by phone at: 512-571-0079
