TVFC/ASN Digest: Be Better Prepared for an Emergency, Reporting Your Patient Population, and More

Texas Health and Human Services Commission sent this bulletin at 02/03/2022 04:00 PM CST / Este e-mail ha sido enviado por Texas Health and Human Services Commission el 02/03/2022 04:00 PM CST

News for TVFC/ASN Providers February 2022

TVFC/ASN Digest
IMMUNIZATION NEWS

Be Better Prepared for an Emergency

The Texas Vaccines for Children (TVFC) and the Adult Safety Net (ASN) Programs require that all enrolled sites have plans for vaccine management in the event of an emergency such as loss of power, unit failure, or a natural disaster. For tips about developing an emergency plan, [read more here](#).

Reporting Your Patient Population

As part of the Texas Vaccines for Children (TVFC)/Adult Safety Net (ASN) Program requirements, all participating clinics must maintain up-to-date patient population information. [Read more](#) about updating your patient population throughout the year.

Learn the latest.

New Single Sign-On System

As many of you are aware by now, DSHS implemented a new Single Sign-On system on Monday, January 24, 2022. In the new system all users of Syntropi, ImmTrac2, and the Vaccine Allocation and Ordering System (VAOS) log in through the HHS Enterprise Portal.

[Click here](#) for more about how to log on, support and assistance.

Events

- FEB** International Prenatal Infection Prevention Month
- FEB 8-9** Texas Hospital Association Conference
- FEB 17-18** Texas Collaborative for Healthy Mothers & Babies Summit
- MAR 22-25** National Conference on Pediatric Health Care
- MAR 24-27** Hispanic Health Conference
- MAR 28-30** Vaccines Summit Boston 2022

Re-Enrollments Reminder

Re-Enrollments are currently being reviewed and approved on a rolling basis. Once your facility has been approved, the primary and secondary listed on the account will receive an email confirmation with the VAOS log in details.

VAOS Reminder

The [Vaccine Management Resources for TVFC and ASN](#) webpage is a great resource for information and instruction. Listed here are recorded presentations, job aids, instructional videos, and FAQs from webinars/Office Hours. The FAQs have a wide variety of questions and answers with 14 different categories spanning VAOS 101, Enrollment, Reports, Vaccine Ordering, Doses Administered, Reporting, and more.

Please contact your RE with any VAOS related questions.

Greenlighting Co-Administration

Co-administration of all recommended vaccines is vital to increase the probability for individuals to be fully vaccinated at the appropriate time and age - especially when a health care provider is uncertain that a patient will return for additional vaccines.

According to the Centers for Disease Control and Prevention (CDC), the COVID-19 vaccine can be administered with other recommended vaccines without regard to timing. This means that influenza and COVID-19 vaccines can be administered at the same visit and in doing so, will work to reduce illness, hospitalizations, and deaths. Read more information about administering multiple vaccines [here](#).
