## IQIP Core Strategy: Strengthening Vaccination Communication

The fourth IQIP Core Strategy focuses on strengthening vaccination communications which play a vital role in ensuring children and adolescents are properly vaccinated.

As a vaccine provider, you can strengthen vaccine communication by engaging parents and patients through the increase use of positive vaccination messaging, providing accurate, easily accessible information on vaccines, and through effective vaccine education with parents. [Read more here.](#)

## Reporting TVFC/ASN Vaccine Waste in VAOS

If you have TVFC/ASN vaccine that needs to be reported as waste, please log into your VAOS account to report. For steps, reminders and important information about entering data and reporting waste in VAOS, [click here.](#)

## PCV20 Provider Memo

As of **March 3<sup>rd</sup>, 2022**, the ASN program replaced PCV13 (Prevnar13) with the new pneumococcal conjugate vaccine PCV20 (Prevnar20) in the Vaccine Allocation and Ordering System (VAOS) for adults ages 19-64. [Click here](#) for more information on this new vaccine.

Virtual Summit**

May 20, 2022  
9am to 4pm (CST)

Hear experts recommend strategies to prevent and decrease Hepatitis B and improve care for perinatal Hepatitis B.

### Centers for Disease Control and Prevention (CDC) Standards for Adult Immunizations Practices: Recommend

One of the best ways to maximize adult vaccination coverage is to follow the [Standards for Adult Immunization Practice](#), which help providers ensure that all of their patients have the opportunity to be fully vaccinated. [Read more](#) about standards that should be implemented by all healthcare professionals to ensure patient populations become fully immunized as well as the important information you can share that can help a patient make an informed decision.

### Adolescent Immunization Action Week – April 4<sup>th</sup> through April 8<sup>th</sup>

**It's time to catch up on missed immunizations!**

A lot of things got put on hold during the pandemic, but now is the time to get adolescents back on track with recommended immunizations. Take time this week to send out vaccine and well visit reminders to adolescents and their parents or guardians.

Check out the resources and events promoting adolescent immunization [here](#).

**APRIL 4-8  
ADOLESCENT  
IMMUNIZATION  
ACTION WEEK  
2022**

Don't Wait.  
Vaccinate.

**Are your adolescents up to date  
on their routine vaccines?**

Help protect them from these serious illnesses:

- ✓ Meningitis
- ✓ Whooping Cough
- ✓ Cancers caused by HPV
- ✓ Flu

*It's a great time to spring into action.*

**Schedule your vaccination appointment now.**

### World Immunization Week 2022 – April 24<sup>th</sup> through April 30<sup>th</sup>

**Long Life for All: In Pursuit of a Long Life Well Lived.**

World Immunization Week is the perfect time to highlight the importance of vaccines in preventing disease across the lifespan. The goal of World Immunization Week 2022 is for more people and their communities to be protected from vaccine-preventable diseases.

Keep an eye out for the downloadable resources available in the six UN languages that will soon be available [here](#).

### National Infant Immunization Week – April 24<sup>th</sup> through April 30<sup>th</sup>

National Infant Immunization Week (NIIW) highlights the importance of protecting infants and young children from vaccine-preventable diseases. This year, a primary focus is to ensure families stay on track for their children's well-child visits and routinely recommended vaccinations.

[Here](#) you can find a digital media toolkit, examples of key messaging, and tips for talking about vaccines with parents.

### Adolescent Toolkit Webinar Series – April through June 2022

Adolescent providers join us for a six-part lunch and learn series focusing on the importance of adolescent vaccines. We will cover the recommended adolescent vaccines, such as HPV, MenACWY, MenB, and Tdap, as well as discuss strategies for effective communication and vaccine inclusion.

Look out for an email with the registration information and supporting material in the mail.

### Vaccines for Teens Provider Webinar Series
