Pottery and cookware
Ceramic glaze used in pottery may contain lead and enter food stored or prepared in the pottery.

Toys and jewelry
Products bought from many stores have been found to contain lead. For information regarding recalls of jewelry and toys, visit the Consumer Product Safety Commission website at www.cpsc.gov.

For more information on lead poisoning, please call 1-800-588-1248 or go to www.dshs.texas.gov/lead/
