

DSHS GRAND ROUNDS

"The Future is Now: Advances in HIV Prevention and Treatment in 2024"

Barbara Saatkamp Taylor, M.D., M.S.

Department of Medicine, Division of Infectious Diseases
UT Health San Antonio, Texas

Texas remains one of the epicenters of the US HIV epidemic, with Dallas, Ft Worth, Houston, Austin, and San Antonio all recognized as priority jurisdictions for Ending the HIV Epidemic efforts. This session will highlight the current state of the HIV epidemic in Texas and globally and discuss innovative new strategies to prevent and treat HIV. We will also discuss the future of HIV treatment including long-acting medications for prevention and treatment and recent advances in HIV vaccine development.

WHEN

Wednesday, April 24, 2024

11:00am – 12:30pm

WHERE

GoToWebinar

Objectives:

- Describe the current state of the HIV epidemic globally and its impact in Texas
- Identify newly available modalities for prevention and treatment of HIV
- Discuss challenges and opportunities in ending the HIV epidemic in the US by 2030
