# Data to Care

---

**Karen Surita, Data to Care Coordinator**

**Allyson Morris, Data to Care Epidemiologist**

# Background

---

A public health strategy which aims to identify people living with HIV (PLWH) who have been diagnosed but are not in care, and to engage or re-engage these individuals in medical care

Addresses the first two goals of the National HIV/AIDS strategy:

- Reduce the number of people who become infected with HIV
- Increase access to care and optimize health outcomes for people living with HIV

TEXAS  
Health and Human Services

Texas Department of State  
Health Services

# Goals

---

- Increase the proportion of PLWH engaged in HIV medical care
- Increase the proportion of PLWH linked to HIV medical care within 12 months of their HIV diagnosis
- Increase the proportion of PLWH retained in HIV medical care
- Prioritize re-linkage to care services

Health Services

# Evolution of Data to Care

2012

- Data to Care began under HIV Prevention: Category C

2014

- HIV Prevention: Category C funding ended

2015

- Data to Care continued utilizing HIV Prevention and general revenue funds

2016

- Data to Care expanded to four project sites around Texas

2019

- Expand program by partnering with new providers

# Methods

---

TEXAS  
Health and Human Services

Texas Department of State  
Health Services

# Data Sources

## Care

- Electronic Lab Reporting
- Ryan White
- AIDS Drugs Assistance Program (ADAP)

## Locating

- Addresses on labs and prescriptions
- Accurint
- Texas Department of Criminal Justice

## Vital Status

- Texas Vital Statistics
- National Death Index
- Social Security Death Index

# What defines someone as out of care?

---

- A newly-diagnosed individual not receiving care within 6 months of diagnosis
- A PLWH who has previously been in care but has not received any type of care within the last 12 months

TEXAS  
Health and Human Services

Texas Department of State  
Health Services

# Types of Follow-Up

---

There are 2 paths by which we identify those out of care

- Surveillance Initiated Follow-Up
- Provider Initiated Follow-Up

TEXAS  
Health and Human Services

Texas Department of State  
Health Services

# Surveillance Initiated Follow-Up

**Generate a file containing individuals not incarcerated and living in the project jurisdiction**

**Filter individuals who were never in care or who have been out of care for more than 12 months**

**Create a list of individuals and send to participating local health departments**

**TEXAS**  
Health and Human Services

Texas Department of State  
Health Services

# Provider Initiated Follow-Up

**Providers review their medical records**

**Identify patients who have missed more than two medical appointments or have not been seen in 6 months**

**Provider sends most current locating information to the local health department to locate the out of care patients**

**TEXAS**  
Health and Human Services

Texas Department of State  
Health Services

# How do we Engage/Re-engage PLWH into Care?

---

- Perform record searches
- Conduct a minimum of 3 phone calls and/or field visits to locate the person
- Verify the person is living in the jurisdiction and not already engaged in care

TEXAS  
Health and Human Services

Texas Department of State  
Health Services

# How do we Engage/Re-engage PLWH into Care?

---

- Assess reasons out of care/ refuse services
- Schedule intake and/or medical appointments
- Assists in preparing paperwork
- Arrange transportation
- Referrals to social or community services
- Confirms the person attended the medical appointment and is engaged in care
